

UNPRECEDENTED FLEXIBILITY

Display your object from any angle with the QPC35's flexible camera head and long reaching swivel arm. The Caterpillar Cam takes your projection to new heights, reaching about 2 feet tall and with **6-axis of flexibility**. The QPC35 is easy enough to move with one finger but sturdy enough to keep stationary in position.

VERSATILITY AND EASE OF USE

QOMO's Caterpillar Cam is by far one of the most **versatile and easy to use** portable document cameras on the market. The QPC35 is both an accessible presentation tool for teachers and students, and a powerful webcam for business conference calls. Plus a one click media capture function enables quick and efficient video and photo recording.

POWERFUL CAMERA

With a **5.0 mega-pixel camera**, high frame rate and a large viewing area the QPC35 camera displays the most vivid and dynamic images and videos.

SPACE SAVER

The QPC35 clamps sturdily to your desk, making it convenient and portable while occupying virtually no desk space! This makes for the perfect teachers desktop tool.

14x Optical Zoom

30 fps

6 Degrees of Rotation
